I am inclined to recommend a meeting on the staff level to gather this information and possibly including Commerce or DEQ staff.

Thanks, Stephen

Good Afternoon,

Sustainable Sandhills has commissioned an economic impact study on the proposed Atlantic Coast Pipeline. We have grave concerns that the estimated economic benefit of this project has been overstated by ACP, LLC and that opportunities are being overlooked for North Carolina to keep more energy production dollars in the state by investing in cleaner, local energy generation.

We request an opportunity for our Executive Director, Hanah Ehrenreich, to speak briefly with the Governor and present our report sometime in next two weeks.

With Great Respect,

--

Maria McDonald | Environmental Communications Manager
